REPORT ON “TRAINING PROGRAM FOR CAMPUS AMBASSADORS AT INTEGRATED INSTITUTE OF TECHNOLOGY DWARKA, DELHI

110077 (24TH January, 2020)

Integrated Institute of Technology organised a training program for all the campus ambassadors of all the colleges of **GGSIPO**. Ms Pratiksha Verma and Mr Rahul Kumar Yadav, Campus Ambassadors of AIE attended the workshop. The workshop was organised on **24th January, 2020** focused upon how to create awareness among people which followed the principle of multiplication. **Dr. Mahaveer Genwa** was the keynote speaker of the program, he briefed on how to create voting awareness among youths at college level.

Dr. Mahaveer introduced about **Electoral Literacy Club** which is collaborated with **NATIONAL SERVICE SCHEME (NSS)** and functions under district election officer of that particular district to which it belongs. The club functions throughout the year on creating awareness about importance of voting through various activities like slogan writing, poster making, debate, street plays etc. the competitions can be organized by the funds being provided by **DISTRICT ELECTION OFFICER (DEO)** according to the budget of the electoral literacy club of a particular college. The funds help to conduct more activities and encourage more number of participation and highlight the role of voting of people in a democratic country like India.

He also told about an application **VOTER HELP APP** by which you can know the crowd at your voting booth after you connect your voter ID with the app. He also

sensitized about the facilities for **PERSON WITH DISABILITY (PWD)** and for senior citizens etc. and assures minimum facilities at the booth.

Later he showed us a video on how to operate the **VOTER-VERIFIED PAPER AUDIT TRAIL (VVPAT)** which consisted of a control unit, a voting ballot and a printer and taught us how to operate it. The machine automatically does a self-check and does not function if there is an error. The machine shows the candidate voted by the voter for 7 seconds on the screen and also generates a receipt which automatically keeps on collecting in the printer. The machine is guaranteed for very few errors and promotes more transparency between voting booth and voter. He also told us about to conduct a demonstration on how the **VVPAT** functions at our institute by the help of the **DISTRICT ELECTION OFFICER (DEO)**. The workshop was interesting and motivated us to exercise our right to vote being a responsible citizen of the country.

TRAINING WHILE VOTING AWARENESS PROGRAMME
