<p>Is your campus networked in a manner that your faculty can administer test and quizzes at the end of each class or unit using either mobile phones, laptops or equipment provided by you?</p>	<p>Yes, Institute has Wi-Fi facility in the campus/hostel & LAN connectivity in the ICT Lab & classrooms</p>
<p>Do you have Aadhaar authenticated biometric attendance for faculty and students that is used every working day?</p>	
<p>Do you have an operational IT enabled online Learning Management System (LMS) that is regularly used by faculty and students to distribute reading material and other educational resources and to collect and evaluate submissions by students?</p>	
<p>Please give a detailed description of your LMS, its features and how you use it to help your students.</p>	<p>The institute is having Learning Management System. Teachers know that students walk into their classrooms with a wide range of abilities. But teachers try to find ways to meet the needs of all students, including those with learning and attention issues. The institute provides ICT facility to faculty and students. Teacher in-charges interact with the students and identify the potential of the learner. With this approach, teachers change and switch around what students need to learn, how they'll learn it, and how to get the material across to them. When a student struggles in one area, the teacher creates a plan that includes extra practice, step-by-step directions, and special homework. Students submit their assignments in soft copies, through mail. Students prepare their practical work using the ICT facilities available in the Institute. Student and faculty can access Ebsco and Delnet for reference for research papers, assignments, subject notes. etc Besides this the faculty members remain connected with the students through Google group, face book, whatsapp groups and blogs. The important information is shared through these groups.</p>

<p>What is your approach to using instructional resources for science to meet the needs of your students and faculty?</p>	<p>The Science Resource Center is to support and enrich the science program in AIE so that our student teachers will achieve the goal of scientific literacy. The Science Resource Center is a free support center for students enrolled in the two year B.Ed course. Knowledgeable tutors help them with science curriculum. Models, textbooks and other resources are available. The purpose of the Science Resource Center (SRC) is to provide life science and physical science students with academic support. Free tutoring in anatomy, biology, chemistry, physiology and physics is available to all students. It is open mornings as well as evenings and if required also on weekends. We have a quiet positive environment and tutoring assistance in the center. If students need help understanding concepts, setting up problems or reviewing topics before exams, the faculty guide them. Any AIE student who is enrolled in a biological or physical science or integrated science class during the current semester may use the SRC. If the student is not enrolled in a science course during the semester, then also they will be able to use the SRC. An issue-return register is maintained in the SRC in which the required item can be issued by the science lab in-charge. Faculty members encourage students to ask them for assistance.</p> <p>1. Resources- The SRC has various resources to aid the students with their coursework including the following: Books - Copies of the current textbooks for most science classes are available for use in our SRC lab. The AIE Science Resource Center provides support to science teachers and students throughout the session to both the batches with:</p> <ul style="list-style-type: none"> • Special demonstrations to nurture curiosity and stimulate interest and motivation. The SRC provides training to the volunteers who facilitate the activities. • Hands on lab activities to develop problem-solving skills. Volunteer help is needed in the following areas: • scheduled deliveries of materials to schools. • lab kit prep - cut, count and bag materials for lab kits used in science classrooms. • gardening - our herbal garden is constantly in need of weeding and planting new plants. • field trips – Eco Adventure • Demo Training • Donations/Materials Needed • Activities of Eco club • Events related to National Science day celebration etc <p>Models - Anatomy, botany, chemistry and zoology models are available for students to use in the SRC.</p>

What is your approach to using instructional resources for social sciences to meet the needs of your students and faculty?	According to NCF (2005) Social science teaching needs to be revitalised for helping the learner acquire knowledge and skills in an interactive environment. The institute has adopted methods that promote creativity, aesthetics, and critical perspectives, and enable children to draw relationships between past and present, to understand changes taking place in society. While planning the year calendar teacher educators keep in mind different dimensions of social reality in the class, and work towards creating increasing self-awareness amongst themselves and the learners. Social science lab provides facilities to prepare models and related teaching aids. During School Experience Programme students are encouraged to utilise greater resources of audio-visual materials, including photographs, charts and maps, and replicas of archaeological and material cultures. Student teachers participate in subject based dramatization, role play, flash mob, cultural activities and community service to make the process of learning participative.

<p>What is your approach to using library resources to meet the needs of your students and faculty?</p>	<p>Institution has a library committee consists of Principal, two Faculty members and Librarian, which holds quarterly meetings to discuss latest acquisitions and to decide in further requirements. Before the commencement of each academic year circulation will be given to all faculty to suggest books required in library from their teaching subject. Major publishers are invited to the institute for book fair and institution sends faculty and student representatives to attend international book fair. Faculty and students give suggestions on books and each faculty member prepares list of books and journals. Library committee finalizes suggested list and send the list to management. Books are purchased from the Grand- in- Aid from the management. Besides this, at any time, on faculty suggestion or on students' requirement Principal can pass a maximum of 5000 Rs. to update library. A suggestion box is kept in the library to get the feedback of the users. Which is also considered for the improvement of the system. To ensure easy accessibility of library resources library is automated by using LIBGURU software. Biometric punching system is in place to ensure the usage of library. Four Computers with internet facility, speaker and headphones are available in library.. Reprographic and Printing facilities are also available. Along with subscribed national and international journals Students and faculty have access to online data bases like EBSCO and Delnet. They can access it from anywhere from the campus. Library functions in all working days from 9 am to 5 pm and closing time can be extended up to 7 pm if it is required. It is none closing during the entire working time. Library functions during examinations also. On request it is kept open on holidays. Students and faculty are informed about new arrivals through circulation, and notice board. To ensure equity in learning the institute provides books under book bank system. To keep the library disabled friendly a collection of Braille books, audio CDs, small library at ground floor and lift service to main library are arranged. Syllabus of programme, Learning Materials prepared by faculty, collection of question papers etc. are available in library along with Books, Journals, Text books, CDs and Magazines. What is your approach to using sports psychology resources to meet the needs of your students and faculty?	Physical Education Teacher encourages and motivates students teachers to participate in sports tournaments after identifying their potential. Sport psychology offers a new realm of discovery for coaches and athletes at all levels of sport. Physical Education Teacher applies sport psychology principles to help improve team communication, cohesion, and satisfaction. Through applying these principles, an atmosphere can be created that can enhance athletes' learning, build their confidence, and increase their motivation. Sport psychology also offers strategies used to help athletes improve concentration and maintain their composure under pressure. Such skills are trainable and controllable, and when executed, they can increase the likelihood that team performance will improve.

What is your approach to using measurement and sports training resources to meet the needs of your students and faculty?	The students and teacher do their physical fitness exercises in the gymnasium. Upon completion of the exercise, the physical education teacher provides feedback , if required. This helps the students to participate in university and national level sport competitions. Different sports require different fitness components. A sports teacher builds a profile of a performer’s sport-specific training needs in order to design a training programme to target and enhance fitness components that are important for their sport.

What is your approach to using sports bio-mechanics resources to meet the needs of your students and faculty?	Sports equipments available in the gymnasium helps to meet the need of students and faculty related to sports bio-mechanics. Sports bio-mechanics is a quantitative based study and analysis of professional athletes and sports' activities in general. It can simply be described as the Physics of Sports. In this subfield of bio-mechanics the laws of mechanics are applied in order to gain a greater understanding of athletic performance through mathematical modeling, computer simulation and measurement. Biomechanics is the study of the structure and function of biological systems by means of the methods of “mechanics.” – which is the branch of physics involving analysis of the actions of forces.
