About the Conference:

Our modern society is nowadays, driven by a culture of violence & materialism, due to this, the whole of human life is in a state of turmoil. Our world is divided disharmoniously; it is torn by social conflicts of different nations, groups of people and religious classes, therefore it is unsustainable. Human peace & spiritual values are decreasing at a very fast rate, resulting in the deterioration of humanity.

In an increasingly globalized Asia, the economic, industrial and political developments among the nations that are located within the continent have brought about drastic social change.

Human values are eroding at a very fast rate resulting in declining the quality of life. The root cause of all these new evils is the impurities and imbalance of minds by a rapid development of science and technology which has given us materialistic comforts and done nothing at psychological and social level.
