ACTIVITY

CREATE AND USE OUTDOOR CLASSROOM

ECO-Club slated activities Under District ECO-SDG CHAMPIONSHIP-2023; Army Institute of Education planned to "Create and Use Outdoor Classroom" on 28th August/2023, to stimulate imperishable environment and essence of viable teaching-learning exercise. The intent of conducting outdoor classroom teaching-learning session is to rejuvenate the young minds and 21st century teacher trainees to appreciate the vitality of Mother Nature and its productive impression in the cognizance, emotive and psychomotor elements for learning and growing process. The activity was set in motion as a fragment of structured and well-regulated teaching-learning conclave. The students were notified to assemble at Herbal Garden, AIE. The activity begin with rolling-out the mats in the garden, followed by mustering of white boards, bulletin boards, and along with that, to accompaniment the naturalness, pleasing and exquisite flower-holders were embarked to intensify the attraction of the outdoor classroom teaching-learning.

The "Create and Use of Outdoor Classroom was of a one and a half hours session, which encompassed of delivery of Micro-Teaching Lesson Plan by the Pupil-Educators, dispensing their teacher-training skills and their eloquent teaching-learning Material at the habitat of AIE, Herbal Garden.

The Micro-teaching outdoor classroom was a sensation with the zestful and zealous engagement of our learners. The significance of the learning activity inflated in the lap of mother earth.

Students' Activity:

The student's activity included delivery of simulated Micro-teaching learning. Six students conducted their micro-teaching lesson plan, showcasing the Maxims of Micro teaching skills, through demonstration, appropriate and adequate usage of examples, discussion method and along with stimulus variations and teaching-learning materials in concern with incorporation of environmental aspect of learning. The Micro-Lesson plans were designed in a way that they aligned with the theme of the activity and fulfil the learning objectives of the activity arranged.

Number of participants:

The number of participants comprised in the 'Create and Use outdoor Classroom activity' were around ninety one pupil-teachers, activity In charge and respective teachers allotted for the Micro-teaching Lesson Plan.

Activity outcome:

- There were numerous of positive learning outcomes of the activity conducted which not only help in achieving higher level of academic skills but also widen the scope of enjoying and embracing the process of teaching-learning in the natural settings in its real sense.
- It promotes Hands-on-Experience and practical learning in natural environs making learning more profound and seeping deep within the students.
- It helps to promote collaborative and group/peer teaching method and provided with effective opportunities to reflect students' view point more efficiently.
- The create and Use of Outdoor Classroom is an effective technique to reconnect our students to mother earth in a fun and naturalistic manner, simultaneously breaking the barns of restrictive teaching-learning classroom environment and at the same time, enhancing the imperativeness of our biodiversity and sense of cohesiveness.
- It also evokes the divergent and innovative thinking of our learners in the best effective manner.
