PRINCIPAL'S FOREWORD

I am pleased to introduce the bright and talented students of B.Ed. and B.ED. Special (LD) Batch (2021-23) of Army Institute of Education.

It is matter of great pride for us that AIE since its inception has made rapid strides and has emerged as the best teacher education institution. The institute with its carefully designed curriculum, systematically transforms young mind into outcome oriented future teachers. We not only teach them pedagogy but also teach them to be the leaders who believe in the values and ethos. Throughout their training program Students are continuously involved in various activities having an aim of all round development. We cautiously emphasize on holistic development of students instead of focusing merely on academic front.

Thus, Beside equipping the students with the required professional competencies equal focus is given on developing moral values and professional ethics in them. Pandemic has changed the whole teaching learning scenario and we in no time adapted with these changes and also trained our students to use the online resources in teaching. All our students are well trained in multiple teaching skills and are able to teach in online and offline both the modes.

Students are so groomed that they can easily adapt to the specific requirement of teaching field while remaining sensitive to the different sections of the society. I assure prospective recruiters that the performance of our students shall be of par excellence and they shall bring laurels both to their employers as well to their alma matter.

I wish a great future to our students and look forward for a synergic relationship with the recruiters.

Today as the time is changing, gradually the responsibilities of a teacher are also growing. Ever since Alpine has collaborated with AIE for the recruitment of the staff. Its hunt for teachers has come to a halt. As I learned about the motto of the institute .

I see the glimpse of the same in each of the recruited member. Being young, dynamic and sensitive, they have thirst to imbibe and inculcate new skills to be professional in their approaches. All thanks to AIE and wish them the best of luck for nurturing and moulding the ones who are ready to shape the destiny of the future of the country.

ENGLISH TUTOR

ONLINE ENGLISH TUTOR AT SCHOLASTIC INDIA & PLANETSPARK

I still remember my first day at AIE, I was very nervous and got more when we were expected to give our introduction on the stage. I still remember I was shivering when I went up and couldn't say a sentence properly. That day I realized I need to make an effort to get out of my comfort zone. The language was not an issue for me but going on stage and facing the crowd was and there was a solution for it. At AIE, we got the opportunity to participate in a lot of events and I did participate in each one of them. Whether I would get selected or not, I never let that thought stop me, I always went and participated in all the events. And this is how I came out of my comfort zone.

Whatever I have learned from AIE has helped me so much in my teaching career. The teachers I met, and the friends I made, I still look for reasons to come back at least for a day, and relive all those beautiful memories. I started my career as an online tutor and I thank AIE for it. AIE has not only taught me how to give my best at work but also how to develop a special bond with my students and I am trying hard to give back everything that I have learned from AIE to the future generation.

Proud Alumni of AIE!
