About the Conference

RELEVANCE OF THE THEME

The COVID-19 pandemic has shocked economies and civilizations all over the world. Questions regarding epidemic preparedness and more generally about past, present, and future development have been raised by the effects of the disease and the tactics taken to contain it. The COVID-19 has drawn attention to, and at times exacerbated, the fragilities that already exist in systems of all kinds. The pandemic has not only shown gaps and inconsistencies in traditional methods of Education, Economy & Health, but it has also offered new directions for action. They collectively point to the need for a significant rethinking of not only pandemic preparedness and response but also development theory and practise, revolving around Education, Economy & Health.

This International Conference is an initiative to provide a platform to educationists, economists & health sector institutions to deliberate upon the issues and concerns for reinventing and reimagining post pandemic society.

OBJECTIVES

The International Conference is an educational endeavour to:

- To identify and address the diverse and emerging needs in the field of Education, Economy & Health in global scenario.
- To address the challenges in the field of Education, Economy & Health through pragmatic approach.
- To create a platform for sharing knowledge and dialogue on issues related to Education, Economy & Health in post pandemic society.
- To compare the evolution of Education, Economy & Health systems across the globe from past to present in terms of equity, excellence, quality and innovation aspects.
- To empower the stakeholders in the field of Education, Economy & Health with variegated ideas related to enhancing equity, excellence, quality and innovation in their respective fields.

DISCUSSION THEMES

1. Fostering Equity in Education in Terms of Resources, Opportunities, Knowledge & Skills.
2. Excellence in Pursuit of Knowledge, Research, Value Enhancement & Employability in post pandemic society.
3. Quality Enhancement & Innovative Pedagogical Strategies in Education in Post Pandemic Society (Schools, HEIs, TEIs).
4. Striving for Sustainable Society through Education, Economy & Health.

5. Emergent Mental Health Challenges in Post Pandemic World- Navigating the Way Forward.
6. Impact of Covid-19 Pandemic on Health & Wellbeing.
7. Impact of Covid-19 Pandemic on Global Economy.
8. Global Firms and Covid-19: Survival, Management & Strategies.

1550-1555 hrs	Vote of Thanks by Ms Kriti Guleria, Conference Convener Assistant Professor, AIE
1555- 1605 hrs	Certificate Distribution
1605-1610 hrs	Group Photograph
1610-1615 hrs	National Anthem

Prologue

Around the planet, the COVID-19 pandemic has shaken economies and civilizations. The consequences of the disease and the measures attempted to contain it have prompted concerns about the ability to prepare for epidemics as well as more general issues related to past, present, and future development. The COVID-19 has drawn attention to, and at times exacerbated, the fragilities that already exist in systems of all kinds. The pandemic has not only highlighted the shortcomings and inconsistencies of conventional approaches to education, the economy, and health, but it has also provided fresh avenues for action. Collectively, they highlight the need for a profound rethinking of development theory and practise, focusing on education, economy and health, as well as pandemic preparedness and response. Educational, economic and health sectors have to make great efforts to equip prospective professionals at all levels with the necessary knowledge and skills to promote a positive professional attitude in them.

This International Conference is an initiative to provide a platform to educationists/ institutions to deliberate upon the issues and concerns in the field of education, economy & health and their views have been published in this book.

OBJECTIVES OF THE CONFERENCE

The International Conference is an educational endeavour to:

- To identify and address the diverse and emerging needs in the field of Education, Economy & Health in global scenario.
- To address the challenges in the field of Education, Economy & Health through pragmatic approach.
- To create a platform for sharing knowledge and dialogue on issues related to Education, Economy & Health in post pandemic society.
- To compare the evolution of Education, Economy & Health systems across the globe from past to present in terms of equity, excellence, quality and innovation aspects.
- To empower the stakeholders in the field of Education, Economy & Health with variegated ideas related to enhancing equity, excellence, quality and innovation in their respective fields.

EXPECTED LEARNING OUTCOMES

After attending the Conference, the participants will be able to-

- To recognise and respond to the rising demands in the areas of economy, health, and education on a worldwide scale.
- To use a practical approach to handle the problems in the fields of economy, education, and health.

- To establish a forum for discussion and knowledge exchange on topics relevant to Health, Education, and the Economy in the post-pandemic world.
- To evaluate the equity, excellence, quality, and innovative features of how the world's educational, economic, and health systems have changed through time.
- To arm key players in the domains of education, the economy, and health with a variety of suggestions for fostering equity, excellence, quality, and innovation in their respective fields.

MESSAGE FROM THE PATRON

1. It is a delight to share that Army Institute of Education an affiliate of Guru Gobind Singh Indraprastha University, New Delhi is organizing a One-day International Conference on 'Reinventing and Reimagining Post Pandemic Society: In Perspectives of Education, Economy, and Health'.
2. The COVID-19 pandemic led to an unprecedented situation wherein life in all walks of life came to a standstill. The sit led to innovations in the field of education, economy and health. The digital life became a new normal and everything shifted online and all age groups of society adapted to the system.
3. This conference will provide a forum to eminent experts, researchers, students and teachers to educate all of us about the myriad of possibilities which have been generated based on reinvention and reimagining of post pandemic society.
4. I wish to express my appreciation to the organizing team consisting of faculty, staff and students for their hard work in organizing the conference. I am sure it will assist AIE in progressing further.

MESSAGE FROM THE CHAIRMAN

1. It is evident that the theme of conference places a focus on the necessity of increasing everyone's awareness and knowledge in important areas of education, economy and health. The predefined, established social order of society has changed as a result of the covid pandemic. I am happy to learn about the forum where people besides discussing the damage wrought by covid will also talk about the usage of practical strategies in the post pandemic period in the fields of economy, health, and education.

2. I appreciate the Army Institute of Education's initiative for hosting an International Conference, on the occasion of its of Foundation Day. I have no doubt that the planned conference would provide renowned professionals, academicians, and students from all over the world with a bigger platform to share ideas and opinions in order to inspire fresh solutions.

With best wishes,

Jai Hind!

MESSAGE

I am happy to note that the Army Institute of Education (AIE) is organising an international conference on Reinventing and Reimagining Post Pandemic Society: In perspectives of Education, Economy & Health.

The COVID-19 has not only highlighted the shortcomings and inconsistencies of conventional approaches to education, economy, and health, but it has also provided fresh avenues for action. As the world is going through rapid changes the theme is of utmost relevance.

The pandemic accelerated the online mode and completely changed the face of education. With widespread advances and access to the internet, E-learning and technological developments, limitless pedagogical opportunities for students and teachers have opened up. Holding onto past teacher centred face to face teaching practices are no longer congruent with today's needs. Redesigning and rethinking teacher roles should be the number one priority area to be addressed.

The pandemic has also resulted in a paradigm shift in the deliverance of medical consultations. Telemedicine has come to stay. The advancements in the areas of software and technology in our country are being reflected in healthcare as well. In this digital era, medical science and technological innovations can come together to improve the quality of health care, while reducing costs. Post pandemic, changing perspectives on Economy need to be reviewed as well.

I am sure the conference will stimulate interesting and relevant dialogues and idea exchange to come up with concrete suggestions. It is great that the budding research scholars will not only get a chance to share their research work but will also gain immensely from listening to the distinguished expert speakers. I will look forward to be briefed on the discussion post conference.

I appreciate that AIE has taken the initiative of holding an international conference on such a relevant subject. And significantly in the hybrid mode. I would also like to extend my best wishes to the Principal and the Organising committee.

AIE., an affiliate of the Guru Gobind Singh Indraprastha University is doing yeoman service through imparting affordable quality education to the wards, wives and widows of the Army personnel. It is a matter of pride for us at GGSIPU that one of our premier institutes is serving the nation through the service to families of our armed personnel. Congratulations!

I wish the institute continued high standards in education. May this journey of learning, service and success continue!

My best wishes to AIE for the conference and more such successful educational endeavors in the future.

Prof. (Dr.) Mahesh Verma

Prof (Dr) Dhananjay Joshi
Vice Chancellor
Delhi Teachers University, New Delhi

Message

I feel happy to announce that the Internal Quality Assurance Cell (IQAC) of Army Institute of Education, Greater Noida is organizing an International Conference, on 23 February 2023, on the theme 'Reinventing and reimagining post pandemic society: in perspective of education, economy & health'. This International Conference is an initiative to provide a platform to educationists, economists & health sector institutions to deliberate upon the issues and concerns for reinventing and reimagining post pandemic society.

The institution has marked its remarkable presence in the field of quality education with concerned efforts in holistic development of future teachers. Through this conference the institution aims to welcome varied perspective and opinions in the light which will help not only in bringing solutions but also it will provide ideas as to how to implement those plan of action.

It is assertive that the proposed conference will give notable experts, researchers, scholars, students and delegates from across the world a larger platform to exchange thoughts in order to bring forth innovative creativity and enrich knowledge.

I would like to thank and appreciate the efforts of Army Institute of Education, Greater Noida, for always being true to its aim "to prepare intellectually competent and socially concerned teachers who act as catalyst to shape the destiny of India" and for taking this initiative to conducting such insightful conference. Further I would like to extend my best wishes to the Internal Quality Assurance Cell (IQAC) of the institution for successful conduct of this Conference, the Principal and the teachers of the institution who are always working on such insightful path and lastly to the enthusiastic student-teachers of the institution who will bring forth varied perspective in the light.

With best wishes!

MESSAGE

Army Welfare Education Society (AWES) is delighted to know that Internal Quality Assurance Cell (IQAC) of Army Institute of Education, Greater Noida is organizing an **International Conference**, on **21 February 2023**, on '**Reinventing and Reimagining Post Pandemic Society with special reference to Education, Economy, and Health**'. The event is expected to provide a platform to educationists, financial specialists and professionals in health care for cross pollination of ideas on the contextual topics.

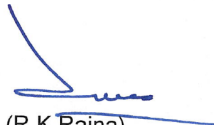

Army Institute of Education has evolved as a bedrock of churning out model educators. The theme chosen for the conference is not only contemporary but involves unfolding of future. Exchange of insightful and professional ideas will constitute takeaways of the sessions. The day long proceedings are expected to throw open inventive and thought-provoking concepts for discussions.

My best wishes to the entire Team AIE for the successful conduct and valuable outcome of the event.

MESSAGE

I am extremely happy to know that the Army Institute of Education, Greater Noida, is going to organize an international conference on 'Reinventing and Reimagining Post-Pandemic Society: In Perspective of Education, Economy & Health'. Education, health, and the economy are the biggest areas of our life that directly affect us. The pandemic has also affected these areas a lot. Even before Covid-19 in the field of education, especially in higher education, online education, MOOC, SWAYAM, UGC-Consortium for Educational Communication, IGNOU, etc. were doing very impressive work. The pandemic has just increased their importance, pace, and scale. Education as an education economy has progressed very fast. From London Business School to most of the world's universities are now conducting authentic online courses. Where digital dissection made science studies easier, today with digital humanities, the area of social sciences getting more exposure worldwide. Many authentic primary sources of the arts, humanities, and social sciences can be seen online on their online official platform. Indian archives and libraries are also making great progress in the work of digitalization. We know that Indians dominate the IT companies of the whole world, and this giving an edge to us, but we also have to understand that all these platforms are tools, not goals. Our goal should be what kind of world and what kind of society we are building. Where is our new generation able to reach in the field of education, knowledge, and wisdom? Are we able to give critical thinking, innovative approach, scientific temperament, and vision to our new generation? Are we making the seeds fit to be the giant trees they are? Are we able to realize their unlimited potential? **We should be able to establish Swami Vivekananda's thoughts on education that 'Education Is the Manifestation of the perfection already in the human being. NEP 2020 is doing important work in this direction.**

The pandemic served as a wake-up call for many facets of healthcare systems. In the health sector, India is also an established country in the form of health tourism, but the way private hospitals are accused of commercial approach during and before, and after the pandemic is shameful. **We need to establish improved, developed legislative, political, and healthcare management systems along with the use of telemedicine, and artificial intelligence with objectivity and transparency.**

We are about to become the most populous country in the world, but right now we are the fifth largest economy in the world, after America, China, Japan, and Germany. The Government of India is working on everything from the digital rupee to cryptocurrency. **The Prime Minister has made an ambitious plan to make India's economy 5 trillion. The abundance of the youth population in India will be a great means for us to fulfill this goal. We need to spend more of our GDP on the education and health sector, we can accomplish this by expanding our economy as well.**

The dialogue that will take place at this international conference will bring various causes, dimensions, and perspectives of these subjects in front of us and when we understand the problem properly then halfway done, solution options will also be considered which undoubtedly will provide expansion to everyone's perspectives. I extend my best wishes for the success of this international Conference and for the publication of quality research papers.

Professor Aarti Srivastava

Department of Higher & Professional Education

National Institute of Educational Planning and Administration

New Delhi-110016

Army Institute of Education is a unique institution to create teachers who are technically adept, socially conscious, ethically upright, and intellectually capable of influencing India's future. In the field of education, the institute provides training to the widows and dependents of the army personnel, which makes it unique from other educational institutions. Also, they always take initiatives to spread awareness among people about the contemporary issues, like the recent global concern of COVID-19 outbreak. Organizing conferences and inviting experts from different sectors enhance the integrity of the institute. It is my pleasure to be a part of the conference, titled '*Reinvention and Reimagining Post Pandemic Society: In Perspective of Education, Economy & Health*'. I wish the institution great success in many leads that it has been playing since its inception.

Aarti

MESSAGE

Bradford R. Elliott
Vice President, US Credit Strategy
Barclays Capital, New York, USA

It is truly an honor to be able to present at the international conference. This is a great opportunity to hear from people around the world with their diverse views that will probably both agree and differ from your own. Therefore, this conference is a great way to expand on your own views and grow your international perspective.

I plan our sharing my own thoughts on how the COVID-19 pandemic has thrown a wrench into the operating landscape for many global corporates, both changing their current operations, and future plans to manage, supply chains, costs, human capital, etc. My focus in a professional context is on the US Corporate credit market. So this experience gives me unique in site into how all these changes are being handled form an executive level at corporate as well as how investors are positioning for changes.

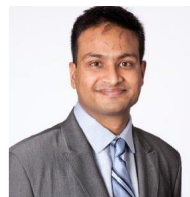

Some trends that have come out of the pandemic were certainly in place well-before but have now been accelerated due to certain aspects of the pandemic. This includes some work-from-home trends, e-commerce, video calling, etc. While these are clearly powerful for how we operate going forward, what's even more interesting are the trends that have completely reversed. De-globalization is a very broad topic but it has broad implications as well. European countries, as well as US, have already put forth measures, to become less reliant on foreign powers for things such as energy, protective medical gears, vaccines, etc. There will likely be a shift in how we think about off-shoring and on-shoring the manufacturing of key good over the next 25 years, which will have significant implications for corporates that have become increasingly more reliant a fully functioning global supply chain as well as the ability to sell to any and all foreign customers.

I am looking forward to discussing these topics with all the students and faculty as well as many other speakers at the conference.

MESSAGE

Anuj Jain,
Director, US CMBS Strategy
Barclays Capital, New York,
USA

I feel honored to be invited to present at the International Conference. Based on my experience, both during my education and at work, these kinds of events are very useful as they bring together people with deep and diverse viewpoints on topics which are important. I commend AIE for organizing this event.

I am very excited to share my thoughts with you on how the COVID-19 has affected the global economy, with a focus on changes related to real estate. As part of my work, I focus on the commercial real estate market in the US. Even though my focus is the US market, many of the changes that has occurred in the US are very similar to what is happening elsewhere in the world.

The COVID-19 pandemic has led to significant changes in how we work and where we work from. It has also led to an acceleration of some of the trends which were already in place before the pandemic. For example, while the share of online shopping had been increasing for many years, it skyrocketed during the pandemic. While these changes directly impact the real estate market, they also have a profound economic and social impact. Additionally, given the unprecedented nature of the pandemic, it has also forced us to re-evaluate our risk management framework

I am looking forward to be speaking with all the students, faculty and other speakers at the conference, and wish success to all the students in their future endeavours.

Anuj Jain

Message

The striking effect of COVID-19 pandemic quantified in social, political, economic & most importantly Healthcare areas of both Developed & Developing countries globally. The pandemic served as a reality check for numerous aspects of the healthcare system, especially regarding their overall readiness. As the world gradually emerges from the crippling effects of COVID-19, the first pandemic at least I have seen in my lifetime, it's an opportune time to reinvent and reimagine ourselves. In such a scenario it thrills me to see that Army Institute of Education (College affiliated to GGSIPU), is organizing a One-day International Conference on the theme 'Reinventing and Reimagining Post Pandemic Society: In perspectives of Education, Economy, and Health' on 21st February 2023.

Any nation predominantly is driven by certain key elements with Education, Economy and Health holding a prominent place in the minds of policy makers. As the saying goes, Education and Healthcare are the building blocks of a society, and we must engage in conversations on how to reinvent our society within these facets. Therefore, holding meaningful talks on such key areas are not only the need of the hour but an essential part of the nation building process & what delights me is to see that a Teacher Training Institute is leading such an illuminating cause. I am honored to be a part of this conference and to lead a conversation on these key areas, especially Healthcare. I also feel honored to share the stage with other dignitaries from the fields of Education, Healthcare & Economy, a significant opportunity made possible due to the ceaseless efforts of Army Institute of Education.

I place in high regards the Conference's organization team for undertaking such a noble endeavor which will not only result in amassing authentic, fact based knowledge with enlightened people from varying fields coming together & generating some serious thought provoking concepts but will also give a chance to researchers, students scholars & people attempting to study/research in the area of COVID a sizeable chance to advance further academically & personally.

Lastly, I believe we need to attract a new generation of the best & the brightest to Public service & I believe such initiatives can be a good source of doing so. I am elated to be part of the conference & wish the Institute nothing but best wishes for this & many such other momentous events the Institute wishes to undertake.

GOD BLESS

MESSAGE

It is a matter of great pleasure that Army Institute of Education (AIE), Greater NOIDA, is organizing an international conference on 'Reinventing and Reimagining Post Pandemic Society: In Perspective of Education, Economy & Health' on 21st February 2023.

COVID-19 pandemic has made an impact on our society which traverses beyond the field of health and beyond the time of active pandemic. It has influenced every aspect of our lives such as health, life-style, education, commerce, communication, transport, international relations and so on. Moreover, its impact is continuing, and even evolving, beyond the period of its active phases. The theme of the Conference echoes with that perspective and the organizers deserve sincere appreciation for the same.

The hybrid mode of the conference itself is a reflection of post-pandemic society. It would result in greater participation at lower costs and more convenience for the participants.

I congratulate the organizers and wish them all the success this great conference.

I wish all the participants a great learning experience and hope that the conference will leave them wiser and inspired to contribute more to the post-pandemic society in their respective fields.

Dr Amit Ahuja

**Associate Professor,
University School of Education,
GGSIIP University, New Delhi**

MESSAGE

After COVID-19 pandemic, the contemporary world witnessed abrupt and profound changes. The education system was paralysed due to the worst shock with the longest school closures combined with looming recession. Certainly, it will set back progress made on global development goals, particularly those focused on economy, health and education. Globally, the economic crises will likely lead to increases in poverty, fiscal austerity and lesser resources available for future investments in public services. Unfortunately, all of this will lead to a lag in human development that may continue long after disease transmission has ended. In coming years how we will cope and emerge out of this scenario is a challenging task. But beyond any doubt, educationists will act as torch bearers for the others to be resilient enough to stand and move ahead as before. In this respect, Army Institute of Education has taken an initiative to invite the intellects to dwell, probe and reflect on this serious aspect of post- covid impact on humanity and society. My best wishes to Army Institute of Education for organizing this international conference with special focus on economy, health and education in post- covid world.

MESSAGE

It has been several months since COVID-19 but our minds are still racing back and forth trying to accept the new normal and stitching the future with our past. We refuse to accept the striking effect of the pandemic on the social, economic & most importantly education all over the world. But rupture took place and **we, instead of going back to normal should move forward for betterment**. No doubt pandemic served as a reality check for numerous aspects of the education system, especially overall readiness. Maximum learners faced difficulties without the structure and benefit of direct teacher-student engagement in an in-person classroom, but many thrived in self-directed remote learning. This shows every cloud has a silver lining as new teaching and learning approaches came into existence like Blended Learning, Self-Directed Learning, peer learning, etc. So, what's next, "**Time to reinvent and reimagine ourselves**"?

We all have to think collectively to give more strength to the whole world in all the sectors to make it a better world to live. I congratulate Army Institute of Education (college affiliated to GGSIPU), for organizing this International Conference on the theme 'Reinventing and Reimagining Post-Pandemic Society: In the perspective of Education, Economy, and Health' on 21st February 2023.

The conference serves platform for sharing ideas and experiences irrespective of differences in time and geography. It indicates globally we all are connected and we all are desirous of designing prosperous and progressive society. There have been unprecedented numbers of quality papers that are to be presented in the conference. I am sure that this occasion will provide an affable environment for the researchers and academicians to freely exchange the views and ideas with others. I convey my warm greetings and felicitations to the organizing committee and the participants and extend my best wishes for the success of the conference.

I convey my best wishes to the team for their laudable effort and also wish them grand success in conducting the event.

Best Wishes

**MESSAGE
FROM ADDL DIR (ACADEMICS)**

1. It gives me immense pleasure to extend warm felicitations and good wishes to the principal, committed staff members, student teachers, and student special educators of Army Institute of Education, Greater NOIDA on its 20th Foundation Day. This institute is a pioneer Institute which strives for visionary, futuristic, & holistic education to the wards and dependents of the Indian Army Personnel since its inception in 2003.
2. With the stalwart vision of the institute in providing quality education along with multitude exposure to the future nation builders, the institute has earned for itself a reputation of one of the best TEI in the nation.
3. Not only in the unprecedented COVID-19 but also in the post pandemic period, the entire academic fraternity has shown unprecedented grit to overcome the challenges mainly in the form of teaching and learning gaps developed during the online education.
3. The international conference will endeavour to bring together the luminous academia to deliberate on reinventing and reimagining the post pandemic society. It will empower the stakeholders to respond pro-actively and constructively participate in discussing their innovative and implementable ideas related to enhancing accessibility, affordability, quality, equity, and accountability in the field of education, economics, & health.
4. I am sure that the knowledge that will be generated as a result of paper presentations and discussions will be an impetus to not only the academic fraternity but also to the financial specialists and wellbeing area institutions and AIE will be a change agent in revamping and reconceptualizing the education for the future ready society.
5. My best wishes to the organizing team, staff members & AIEians for a grand success of the event.

MESSAGE

Col Abhay Rajvanshi,
Registrar & Head of Administration
Army Institute of Education

It gives me immense pleasure to convey my warm welcome and gratitude to all dignitaries and speakers of national and international repute in their respective fields for International Conference on 'Reinventing and Reimagining Post Pandemic Society: In Perspective of Education, Economy & Health' being organised by our Army Institute of Education Greater NOIDA.

Such conferences give an opportunity to the academicians and research scholars to exchange their opinions and views with similar and provocative minds in the arena. At the same time, it will not only titillate thoughts of young mind but also give an excellent occasion to budding student teachers to interact with such eminent scholars. They will be able to update themselves on the latest developments.

The topic is of great relevance in current context when world is still trying to come to terms after an unprecedented and prolonged pandemic affected years. Three areas i.e., education, economy and health have taken an immense impairment post pandemic. It has changed the society, the way we think and the way we act. The things of remote possibility are a reality now.

I appreciate the response this conference has been able to generate among the academicians and scholars. I am sure, the international speakers will bring a different perspective from global point of view.

I take this opportunity to convey my felicitation to our academic team to organize such conference. I also would like to send my heartfelt greetings to all the enthusiastic participants. I wish a great success to the event.

MESSAGE

We have a unique relationship between our education, social behaviour, economic stability, and healthy wellbeing. Education, economy and health are building blocks of a healthy, happy and stable society, and a stable society is the strength of a nation. Any harm to anyone of these factors can shake the foundation of a whole country. Covid-19 pandemic was such an emergency that shook the stability of all these strong pillars of all the countries worldwide. But there is always a ray of hope amidst despair. All diversities bring some opportunities also to grow and to think with a new perspective. Loss of life that happened due to pandemic is irreparable but well-designed recovery policies can help to reduce the likelihood of future shocks.

It is the time to amend our ways of thinking and doing. No doubt pandemic was an obstruction in the progress but that was also the time of survival of the fittest for all in all dimensions and to survive, people explored new opportunities. Flow of the studies broke but students adopted new ways of learning. Many people lost their jobs, conventional traders lose out, income from the business was reduced but many also got new business opportunities and became entrepreneurs. Health sector came out as the front line warriors and in spite of all the odds people's belief in medical practitioners has grown.

This International Conference aims to reflect on all those experiences and to provide a platform to stakeholders, research scholars, teaching learning fraternity to discuss on the learnings and future prospects.

We are fortunate to have a very strong management who are our torch bearer and inspire us to do the best and to be the change what we want to see in and around us. I am thankful to our respected Patron Lt Gen Dhiraj Seth, PVSM and our Chairman Maj Gen Bhavnish Kumar, VSM for motivating us and to provide all support needed for organisation of this International Conference. I am eternally grateful to Chief guest of the conference Prof. Mahesh Verma (VC, GGSIPU) who in no time accepted to grace the occasion with his benign presence. My deepest thanks for Guest of Honor of the day Prof. Dhananjay Joshi (VC, DTU) who has been always by our side as friend, philosopher and guide. I am extremely grateful to Ms. Kesang Yangzom Sherpa, IRS (Member Secretary, NCTE) for accepting our invitation and enlighten us with her words of wisdom.

Saying thank you is not enough for our galaxy of experts from India and abroad who gracefully accepted our invitation and took out time from their busy schedule to share their views on the theme. Without a shadow of doubt, I believe this conference is going to give us new perspectives of designing our society with hope, happiness, growth and better health.

ॐ सर्वे भवन्तु सुखिनः

सर्वे सन्तु निरामयाः।

सर्वे भद्राणि पश्यन्तु मा कश्चिद्दुःखमाप्नुवेत्।

ॐ शान्तिः शान्तिः शान्तिः॥

<i>About the Conference</i>	5
<i>Programme Schedule</i>	9
<i>Prologue</i>	11
<i>Messages</i>	13-28
1. Impact of Covid-19 Pandemic in India: In Perspective of Education Dr. Suman Lata and Dr. H. L. Khatri	33
2. Characteristics of Competency Based Curriculum Dr. Dayal Pyari	40
3. Psychological Well-Being and Anxiety: A Comparative Analysis of Caregivers of Disabled and Typically Developing Children during Covid-19 Dr. Bindu Kumari and Shilpa Kamboj	47
4. Digital Economic Empowerment and Women Well-Being Dr. Shuchita Chandhok	58
5. Etymology as a Pedagogical Strategy: An Action Research from a Teacher Education Institution Dr Saidalavi Kundupuzhakkal	62
6. Attitude of B.Ed. Student-Teachers Towards E-Learning Dr. Azkia Khan	68
7. COVID-19 and Global Economy in Asia: Impact and Challenges Dr. Vandana Dalal	75
8. Quality Enhancement & Innovative Pedagogical Strategies in Education in Post Pandemic Era: A Blendful Thought Zara Shareef	78
9. Impact of Covid-19 Pandemic on Health and Wellbeing Hema Anand	87
10. Revisiting Nai Talim, School Education in India for a Sustainable Society Masooda Haseeb	91
11. Perspectives of Special Educators about Online Versus Offline Mode of Learning for Children with Specific Learning Disability Komal Choudhary	97
12. Programme Based on 7 e-Learning Cycle to Enhance Integrated Science Process Skills of Secondary School Students Ruchi K. Vasudev and Dr. Nalini Patil	108

13. Teachers Perspective – Teaching Learning Pedagogical Skills Post Pandemic 116
Rachita Gupta
14. The Crucial Role Played by Teachers in Promoting Entrepreneurial Mind-Set as 21st Century Skill among the Learners in Post Pandemic Society 123
Kriti Guleria and Prof. (Dr.) Alka Muddgal
15. Quality Enhancement & Innovative Pedagogical Strategies in Education in Post Pandemic Societies 130
Neha Sinha
16. Understanding the Student Diversity in Indian Classrooms: A Contemporary Perspective 138
Alok Dubey
17. Right to Health and Covid-19 Pandemic in India 146
Ekshita Goel
18. Post Pandemic Review of Supervisory Methods and Challenges Faced by School Heads for Quality Education 156
Km. Indu and Dr. Neetu M Shukla
19. Facilitating English Communicative Performance through Blended Project-Based Language Learning 163
Jagdeep Panchal
20. Need of Pictorial Package or Development of Self-Advocacy Skills among Students with Specific Learning Disability 178
Jaskiran Kaur and Dr. Sampurna Guha
21. Internet Safety Awareness among Students with Specific Learning Disabilities 187
Amandeep and Dr. Naveen Singh
22. Educational Activities and their Scheduling During Covid-19 Pandemic: Effect on Students' and Teachers' Psychological State 193
Anil Kumar
23. Post Pandemic Challenges & Opportunities for Teacher's Adjustment in Education 202
Asha Sharma and Dr. Satyendra Gupta
24. Happiness Curriculum: Enriching Holistic Development and Ensuring Mental Wellbeing 208
Devika Naithani and Dr. Anusuya K. Yadav
25. Impact of Covid-19 Pandemic on Health and Well-Being of Students 214
Fauzia Razi and Dr. Anshu Mathur
26. Transition of Teaching-Learning Process during the Challenging Times: Seeking Major Lessons from Covid-19 Pandemic 220
Ishita Chugh

27.	A Study on the Effect of Mathematical Intervention with Virtual Manipulative for Students with Specific Learning Disabilities Krishna and Dr. Naveen Singh	227
28.	Subliminal Messaging: Innovative, Emerging Technique for 21 st Century Digital Learning Environment Manav Sharma and Dr. Anusuya K. Yadav	232
29.	A Contextual Study on the Impact of Covid-19 on the Health and Well Being of Teachers Merin Lukose and Pankhuri Sharma	239
30.	Impact of Covid-19 Pandemic on Health and Well-being Monika Chauhan and Bhawna Atal	244
31.	Impact of Covid-19 on Mental Health of School Teachers Monika Mishra and Sonali Singhal	254
32.	A Study on the Awareness of Students with Learning Disabilities at Secondary Level towards the Scope of Vocational Courses Nikita Tomar and Ms. Seema Saleem	259
33.	Digital Learning Trends: Reshaping the Future of Education Pallavi Jain and Prof (Dr.) Harish Kumar	265
34.	Understanding Mental Health and Wellbeing of Students Post Pandemic: Teacher's Perspective Prakriti Verma	274
35.	Perspectives of Teachers and Parents on Enhancing Social Skills among Children with Special Needs through "Panchatantra Stories" and "The Geeta: For Children" Simran Jain and Saurabh K. Mishra	288
36.	Enhancing the Reading Skills of Children with Special Needs through Poetry Smriti Arora and Saurabh K. Mishra	293
37.	Impact of Covid-19 Pandemic on Health & Well-Being Soma	298
38.	A Holistic Perceptive of Sustainable Development Goals into Tribal Community Sukanya K U and Dr. Seema Menon K P	302
39.	Impact of Covid-19 Pandemic on Global Economy: The Rise of Ed-Tech Industries and Start-Ups Supriya Verma and Soumya Arora	306
40.	Need for Mindfulness Training on the Development of Self-Awareness in Children with Specific Learning Disabilities: A Review Study Tanya Batra and Dr. Sampurna Guha	314

41. Online Teaching with CREDE Teaching in India in Covid-19 Situation Aditi Aggarwal	324
42. Comparative Study on the Teaching Learning Process Post Pandemic Shilpa Kumari and Dr. Jyoti Tiwari	338
43. Emergent Mental Health Challenges in Post Pandemic World: Navigating the Way Forward Pragya Pandey	346
44. The Impact of Covid-19 Pandemic on Health and well-being are the Leading Impediment to the Teaching Profession in India Kumari Neha Sharma and Vijay Singh	353
45. Innovative Pedagogical Strategies in Education Sakshi Sharma and Neha Bhatt	360
46. महामारी के बाद सामाजिक पुनर्रचना एवं पुनर्निर्माण डॉ कुसुम लता	373
47. महामारी के बाद शिक्षा में गुणवत्ता वृद्धि और नवीन शैक्षणिक रणनीतियाँ सोसायटी (स्कूल, HEIS, TEIS) डॉ. बरखा रानी और डॉ. प्रीति कछावा	379
