### MOCK INTERVIEW SESSION FOR BED & BED SPL ED BATCH 2022-24

The Mock Interview Session for BEd and BEd Spl Edn students of the 2022-24 batch was conducted on February 27 and 28, 2024, at the Army Institute of Education, Greater NOIDA campus. The purpose of this session was to prepare students for real-world interview scenarios, allowing them to practice their interviewing skills and receive constructive feedback from experienced professionals in the field.

The interview panel consisted of the following members:

Dr. Abhilasha Gautam - Principal, AIE , Dr. Jyoti Tiwari - Placement In-charge, AIE

Ms. Kriti Guleria - Assistant Professor, AIE, Ms. Komal Choudhary - Assistant Professor, AIE

Dr. Azkia Khan - Assistant Professor, AIE, Mr. Yogesh Kumar - Assistant Professor, AIE

The mock interview session was conducted across three venues within the AIE campus to accommodate all participating students efficiently. Each student had the opportunity to undergo a simulated interview with the panellists, who played the role of potential employers or interviewers from educational institutions. The session followed a structured format, beginning with a brief introduction of the student, followed by questions related to their academic background, teaching philosophy, classroom management skills, and their approach to handling diverse student populations, among other relevant topics.

After each mock interview, the panellists provided detailed feedback to the students, highlighting their strengths, areas for improvement, and offering suggestions on how to enhance their interview performance. The feedback focused on various aspects such as communication skills, confidence, professionalism, subject knowledge, and the ability to articulate ideas effectively.

The feedback provided by the panellists was invaluable for the students, as it helped them gain insights into their interview techniques and identify areas that required further development. Additionally, the constructive criticism offered by the panellists encouraged students to reflect on their performance and work towards refining their skills.

**Learning Outcomes:** The Mock Interview Session for BEd and BEdSplEd students of the 2022-24 batch was a valuable learning experience, providing students with an opportunity to practice their interviewing skills in a simulated environment.

The active participation of the panellists and their insightful feedback contributed to the overall success of the session, helping students build confidence and readiness for future job interviews in the field of education.

Students practiced their interviewing skills in a simulated environment

The feedback provided by the panellists was invaluable for the students
